Summary of Professional Surgical Experience:

- I entered private practice in 1986 and began a General Ophthalmology practice specializing in cataract surgery.
- In 1992 I was the first physician in the Baltimore area performing corneal procedures including Radial Keratotomy(4000 procedures), Astigmatic Keratotomy(2000 procedures) and Automated Lamellar Keratectomy(100 procedures).
- In 1996 I was the first physician in the Baltimore area performing recently FDA approved Photorefractive Keratotomy(PRK) and have performed over 10,000 procedures to date.
- I was the first physician in the Baltimore area performing Lasik in 1997 and have since performed in excess of 60,000 procedures to date.
- In 2003, I was the first surgeon in the Baltimore area to perform LASIK using the FDA-approve IntraLase (femtosecond) technology
- I am currently performing all laser SBK Lasik using an Intralase Model II and a Wavelight/Allegretto(Alcon) 400hz laser.

- I am continuing to perform phacoemulsification and intraocular lens implantation and have performed over 10,000 cataract procedures in my career.
- I am currently using monofocal, toric and Restor, Crystalens accommodating and phakic lenses.
- I am performing limbal relaxing incisions as needed.
- In addition, I am performing Selective Laser Trabeculoplasty(SLT), Yag Laser Capsulotomy and Yag Laser Peripheral Iridotomy.
